

SSPB Educational Day 2009

The assessment and treatment of genetic and neurodevelopmental disorders

16th October 2009, Cambridge, UK

The SSPB is pleased to announce that the 2009 Educational Day will be held at Corpus Christi College, Cambridge, UK.

The Educational Day is designed to provide an update on the assessment and treatment of learning and behavioural problems in a range of genetic and neurodevelopmental disorders. Topics will include Tuberous Sclerosis Complex, Fragile X Syndrome, Down Syndrome and ageing, sleep disorders, challenging behaviours and autism spectrum disorders. The meeting will be particularly appropriate for paediatricians and mental health professionals across health, education, social care and the voluntary sector.

Speakers will include David Franz (Cincinnati), Randi Hagerman (MIND), Tony Holland (Cambridge), Honey Heussler (Brisbane), Pat Howlin (London) and Chris Oliver (Birmingham). A special lecture will be given by Rick Guidotti, fashion photographer and founder of Positive Exposure (www.positiveexposure.org).

The 12th SSPB International Research Symposium will be held on 14th – 15th October 2009 (see overleaf).
